Japanese Popstars LIVE

Ben Sims & Surgeon

LTJ Bukem feat Mc Conrad: LTJ Bukem is the most crucial figure to come of Britain's jungle movement. More than just a floor-packer, Bukem is a visionary music producer and composer whose orchestral maneuvering downtempo moods and ambient breakbeats create a futuristic soul-jazz. He's turned his series with MC Conrad, Logical Progression, into a sound-board laboratory, fraging with new forms, old jazz and a mix of toasting and singing.
